

## Internet Paper Mills

This list of active Internet term paper and essay sites was compiled as part of a Teaching Effectiveness Seminar on cheating, plagiarism and Internet paper mills. The list is provided as a convenience for faculty, in order for them to be aware of the vast variety of resources out on the Internet that are tempting their students. Currently, August 2001, there are over 150 general sites listed below. Subject specific sites are listed at Internet Subject Specific Paper Mills.

Students: read the warnings at these sites. If you turn in one of these papers as your own work, you are plagiarizing. If you need help with research, ask the experts at your institution, the professors, librarians, Writing Center personnel, etc. You are capable of producing work that is much better than what is offered at these sites.
